

## Who Are the Clean Water Summit Partners?

**Bay Area Clean Water Agencies (BACWA)** – Comprised of local governmental agencies that are leaders in urban water resource management and public stewardship of the San Francisco Bay water quality. BACWA members own and operate publicly owned wastewater collection systems and treatment works that discharge to the San Francisco Bay Estuary. Together, BACWA's members serve over 6 million people in the nine county Bay Area, treating all domestic, commercial and a significant amount of industrial wastewater. BACWA was formed to develop a region-wide understanding of the watershed protection and enhancement needs through reliance on sound technical, scientific, environmental and economic information and ensure that this understanding leads to long-term stewardship of the San Francisco Bay Estuary. *Website: <http://bacwa.org/>*

**California Association of Sanitation Agencies (CASA)** – A non-profit, statewide trade association representing 116 public agencies that provide wastewater collection, treatment, disposal, and water reclamation services to 90 percent of the sewered population in California. CASA's mission is to provide proactive leadership, innovative solutions, timely education and information to members, legislators, and the public, and to promote partnerships on wastewater issues with other organizations, so that sound public health and environmental goals may be achieved. *Website: <http://casaweb.org/>*

**Central Valley Clean Water Association (CVCWA)** – A regional association comprised of over 50 wastewater treatment and collection system agencies. CVCWA's mission is to effectively represent the interests of public wastewater agencies in the Central Valley in regulatory matters and to support the exchange of information so members can best meet their business challenges. *Website: <http://cvcwa.org/>*

**California Water Environment Association (CWEA)** – CWEA is a statewide non-profit public benefit association of about 8,000 individual members in the wastewater industry who are committed to keeping California's water clean. CWEA protects our water environment and the public's health by training and certifying wastewater professionals, disseminating technical information, and promoting sound policies to benefit society. CWEA is dedicated to the educational development of our members, who range from field level to management level. Most of CWEA's members (approximately 80 percent) work for municipal wastewater agencies and collection systems, both large and small, throughout the state of California. CWEA offers services at the state level, regionally, and locally through its 17 geographical local sections. *Website: <http://cwea.org/>*

**Southern California Alliance of Publicly Owned Treatment Works (SCAP)** – A non-profit organization comprised of Publicly Owned Treatment Works (POTWs) including wastewater treatment plants (WWTP) and public collection system owner/operators dedicated to assisting its member cities and agencies in achieving regulatory compliance. *Website: <http://www.scap1.org/>*
