SWRCB 303(d) Listing Comment Period Extended

SCAP has been working with the SWRCB to request an extension of time for agencies to review all the materials and data in the recently released 303 (d) List. The comment period has been extended to January 17, 2006 and the Workshop for the 303 (d) List has been rescheduled to January 5, 2006 instead of December 1, 2005.

It is anticipated that the location, the Hilton in Pasadena, will remain the same. In the interim, if you have any major differences of opinion on the listing or delisting, we strongly encourage you to call Craig Wilson at the SWRCB at 916-341-5560. Craig has offered to work with anyone who needs to discuss and review materials presented as part of the Listing process.
